It is difficult to say how long it takes to create a text – the material we have to work with is very different from assignment to assignment. Please contact us with more details for an exact price offer!

Date of delivery and urgent deliveries

Once we have agreed on the price and delivery date and as soon as we consider ourselves in possession of all the material we need to handle your text according to specifications, you receive notification from us that we have begun working with your text and providing you with a date of delivery. Under normal circumstances we will deliver texts that involve less than two full days of work (see below) within five workdays, depending on our work load.

Translation 2500 words/day
Proofreading 7500 words/day

If you want the text earlier than the standard date of delivery, we call it an *urgent delivery*. Find out below how soon you can have your text delivered (electronically). The price for an urgent delivery is 15% higher than the standard prices above – if you want the text sooner still, contact us for a separate price offer.
